PROFESSIONAL SUMMARY

Results-driven IT professional with hands-on experience in back-end development, network infrastructure, cybersecurity, and IT support. Proficient in Python, Django, REST API development, SQL, Active Directory, Linux administration, and fiber optic deployment. Experienced in incident response, vulnerability assessment, SIEM monitoring, help desk operations (Level 1 and Level 2), and end-user training. Holds a Bachelor of Science in Information Technology from Kabarak University. Demonstrates a strong ability to adapt quickly to emerging technologies while maintaining a solutions-oriented, detail-driven approach to complex technical challenges.

WORK EXPERIENCE

Back-End Developer

MemeyAI Group – Nairobi, Kenya

February 2026 – Present

- Developed and maintained scalable server-side applications and RESTful APIs serving 1,000+ concurrent users, ensuring high availability, security, and seamless integration with front-end systems.
- Designed and optimized database schemas and SQL queries, reducing average response time by approximately 35% through targeted indexing and query refactoring across distributed systems.
- Integrated 5+ third-party services, payment gateways, and external APIs into production environments, achieving zero-downtime deployments and uninterrupted service continuity.
- Collaborated with cross-functional teams including front-end developers, UI/UX designers, and product managers to architect backend solutions aligned with scalability and business requirements.
- Conducted code reviews and performance profiling, enforcing coding standards and reducing bug backlog by approximately 40% through systematic debugging and continuous refactoring.
- Authored technical documentation covering API references, system architecture, and CI/CD deployment procedures, improving onboarding efficiency and engineering knowledge transfer.

ICT Assistant, Training and Support

AIC Kanzinwa Child and Development Centre – Mwingi, Kitui, Kenya

May 2025 – January 2026

- Designed and delivered structured ICT training programs for 30+ staff and students on Microsoft Office Suite, improving organizational digital literacy and reducing help desk ticket volume by approximately 25%.
- Conducted departmental needs assessments and facilitated hands-on workshops to identify and close ICT knowledge gaps across all staff competency levels.
- Provided Level 1 and Level 2 technical support across 50+ endpoints including desktops, laptops, printers, and network devices, maintaining a ticket resolution rate exceeding 90% within SLA timeframes.
- Maintained a comprehensive ICT asset inventory of 60+ devices, coordinating hardware repairs, upgrades, and vendor escalations while documenting resolutions in the ticketing system.
- Administered user accounts and access controls in Active Directory, deployed security patches, and performed routine preventive maintenance to maximize system uptime and organizational reliability.
- Supported network administration, new software rollouts, and system transitions for 30+ users, providing hands-on guidance and post-implementation support to ensure smooth technology adoption.

IT Support and Consultant

Hatikvah Communication and General Engineering Ltd – Ruiru, Nairobi, Kenya

February 2025 – May 2025

- Led strategic planning and deployment of fiber optic infrastructure (FTTH/FTTB) across 4+ regional sites, coordinating cross-functional teams to assess site requirements and design optimal fiber routes.
- Managed project timelines, resource allocation, and quality assurance throughout fiber roll-out, delivering all installations on schedule and within organizational technical standards.

- Executed CPE installations and configured Optical Network Terminals (ONTs) for 100+ customer premises, conducting site surveys and technical assessments to ensure installation feasibility.
- Performed precision fiber optic splicing using fusion and mechanical techniques, conducting OTDR testing to measure signal loss, identify faults, and verify splice quality across all deployments.
- Designed and implemented software, hardware, and networking solutions tailored to departmental needs, delivering technical consultation that enhanced workflow efficiency and reduced operational overhead.
- Collaborated on network security hardening, system upgrades, and infrastructure optimization initiatives, improving organizational performance and reducing vulnerability exposure.

IT Support

AIC Kanzinwa Child and Youth Development Centre – Mwingi, Kitui, Kenya

August 2023 – January 2024

- Diagnosed and resolved 100+ technical incidents using structured troubleshooting methodologies, implementing proactive monitoring strategies to detect and remediate vulnerabilities before escalation.
- Developed technical documentation, standard operating procedures (SOPs), and knowledge base articles, reducing average help desk resolution time through improved first-contact resolution rates.
- Designed and facilitated end-user training sessions for 20+ staff on newly deployed software, producing user guides and video tutorials to enable self-service troubleshooting and reduce repeat incidents.
- Conducted client satisfaction surveys and follow-up sessions to proactively address concerns, maintaining strong relationships and aligning IT solutions with organizational objectives.
- Monitored emerging technology trends, conducted gap analyses, and prepared technical reports with upgrade recommendations, ROI projections, and implementation roadmaps for organizational leadership.

SKILLS

Cybersecurity: Network Security, Vulnerability Assessment, Incident Response, Security Patch Management, SIEM, Access Control, Threat Monitoring, Endpoint Protection, Network Hardening, Risk Assessment

Networking: Fiber Optic Infrastructure, FTTH/FTTB Deployment, OTDR Testing, Fusion Splicing, ONT Configuration, TCP/IP, DNS, DHCP, LAN/WAN, Cisco Networking, VPN

Software Development: Python, Django, REST API Development, Database Design, SQL, Query Optimization, Git, GitHub, Android Development, React, JavaScript, CI/CD Pipelines

System Administration: Windows Administration, Linux Administration, Active Directory, User Account Management, System Maintenance, Data Backup and Recovery, IT Infrastructure Management, Help Desk Operations

Data and AI: Data Analysis, Data Visualization, Microsoft Excel, Pandas, Exploratory Data Analysis, Machine Learning, Scikit-learn, AI for Data Science, Reporting and Documentation

Mobile Development: Android Application Development, Mobile UI/UX Design, API Integration, App Deployment

IT Support and Training: Technical Support Level 1 and Level 2, Ticketing Systems, Hardware Troubleshooting, Microsoft Office Suite, Digital Literacy Training, User Onboarding, SOPs

Soft Skills: Technical Documentation, Client Relationship Management, Cross-functional Collaboration, Problem Solving, Project Coordination

EDUCATION

Bachelor of Science in Information Technology

Kabarak University, Nakuru, Kenya

September 2021 – December 2025

- Final Year Project: Developed a Work Shift Management System — a cross-platform mobile application for employee scheduling, shift assignments, and real-time attendance tracking, demonstrating full software development lifecycle competency from requirements gathering through deployment.

CERTIFICATIONS

Artificial Intelligence and Machine Learning for Data Science

Ivy Code Academy

February 2026 – Certificate No. C301/30/2026

- Completed a 2-day virtual workshop on applied AI, machine learning, and data science through project-based learning at Ivy Code Academy.
